

PUTTING IT ALL TOGETHER

Hoolaham is having some trouble adding up the total value of the notes. Help him by filling in the blank with the proper value. Then do the math.

$\circ = 4$

$\text{♪} = 2$

$\text{♩} = 1$

EXAMPLE:

$\text{♪}(1) + \text{♪}(1) = 2$

a. $\text{♪}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

b. $\text{♪}(\underline{\quad}) + \text{♩}(\underline{\quad}) = \text{□}$

c. $\text{♩}(\underline{\quad}) + \text{♩}(\underline{\quad}) = \text{□}$

d. $\text{♪}(\underline{\quad}) + \text{♪}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

e. $\text{♪}(\underline{\quad}) + \text{♩}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

f. $\text{♩}(\underline{\quad}) + \text{♪}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

g. $\text{♩}(\underline{\quad}) + \text{♩}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

h. $\circ(\underline{\quad}) + \text{♪}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

i. $\circ(\underline{\quad}) + \text{♩}(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$

j. $\circ(\underline{\quad}) + \circ(\underline{\quad}) + \text{♪}(\underline{\quad}) = \text{□}$
